IQRA TECHNOLOGY

We are a leading IT Outsourcing and Service Provider Company based in Mumbai, India. We have expertise in the following fields:

Salesforce CRM

➢ We help you to get acquainted with the worlds #1 CRM platform that your employees can access entirely over the Internet — there's no infrastructure to buy, set up, or manage — you just log in and get to work. And the new Lightning Platform gives you the fastest, most complete way to put your customers at the center of everything you do.

➢ Right from Implementation to customizations, we can do as you want, whenever you want, with the lowest cost packages, as compared to other Salesforce Consultants the market has to offer.

Website Design & Development

➢ Website visitors today are sophisticated and expect easy to navigate sites and they have little to no tolerance for a site that doesn't easily provide them with information. Iqra Technology offers more than a site search solution.

➢ What makes Iqra Technology the best choice for your website development project? It's a simple answer. You can't afford to waste your investment for such a crucial aspect of your business by leaving it in the hands of amateurs. You are investing not only money, but your time when you decide to redesign your website. Not all websites are created equally.

➢ Our talented team work in a collaborative manner on

Microsoft Dynamics AX

➢ Microsoft Dynamics AX gives HR the tools to monitor and track employee performance with role-based personalized dashboards, and key performance indicators targeted to specific jobs.

➢ People are at the heart of your business and in HR it's your job to attract and retain the best talent, as well as keeping current employees happy and productive.

➢ We'll help your organization drive development and create a more connected workforce. With Microsoft Dynamics AX, you can recruit top talent by posting job roles both internally and externally, and share applicants across the enterprise with role-tailored information at your fingertips.
